Anita Kerr Jingles

#AK-01 Anita Kerr WLS Platinum Through a special arrangement with Ms. Kerr, we are proud to present the ultimate collection of these jingles, taken directly from her master tapes. You get 99 cuts (58 minutes) from the historic packages created for WLS (AM), Chicago. Each cut on the CD has its own index for easy cueing. The label lists titles for all cuts and some jingles are presented in shorter edits as well as full versions. These are the cleanest sounding versions of these jingles ever heard as we have worked from original source material and used slight CEDAR noise reduction where required. The CD comes with a full-color picture of Anita Kerr on the cover and only a 200 will be pressed. A real collector’s item!

#AK-02 Anita Kerr Treasury Volume I You get wonderful ID packages created for KMOX-FM (St. Louis), KMPC (1969 in stereo) and KMPC 1973 (Los Angeles), WBNS (Columbus, Ohio), WHLO (Akron, Ohio) and WLW (Cincinnati, Ohio). The fidelity on these makes you feel like you’re in the room with the group! Over an hour!

By the way, the KMBZ package has a “not for broadcast cut” sung especially for the DJs “from the Anita Kerr Singers.” It’s an hour and four minutes.

#AK-05 Anita Kerr Treasury Volume IV Another hour and three minutes of wonderful jingles, very different from PAMS and TM product of the same era. #C-26 Toledo Radio Volume I  It’s about time we had a tribute to our own city! Toledo radio was very competitive and we’ve got some of the earliest jingles in this one hour and five minute collection including: WCWA PAMS 1969 a capellas and moog, WOHO PAMS 25, a couple of very old 50’s WSPD jingles from disk (which have had the crackle removed and sound great!!), another package for the old line MOR station WSPD by Musicreations called “Voice of the City,” two packages from top rocker WTOD including the Futuresonic Versatiles and Spot’s Series 27 “On Set.” Then you get an old Pepper package from WTLQ (which turned into WCWA later) and WTTO’s PAMS 1968 custom jingles. You get the TM custom 1976 package for WBZ and a short song for WBZ called “We Please All the People Most of the Time.” Then remember those wonderful CRC jingles for WBZ, which we offered previously? So many people loved them that we went back and remastered them using CEDAR noise reduction to get rid of the hiss. You also get WCOP PAMS 17 and WEZE PAMS Beautiful But Beautiful and a capellas. An hour of jingles.

There’s one bonus track on this hour and five minute CD, “Sounds Familiar,” the 7-minute demo for WTAE and CFTR as recorded by another New York company, Mark Century.

#C-30 Hotlanta Volume I  You get two PAMS packages from WGST (PAMS 40 and the WRC package); WPLO 17, WQXI 18 and their weird 1968 custom series, and three packages we produced using mostly PAMS tracks for WLKQ in North Atlanta in 1987 and 1990 (in stereo!). An hour of PAMS jingles.

It’s an hour of material previously unreleased including (from the top-40 era) Jingle/Announcer Jock IDs from TM (with the voice of Joel Sebastian), singing record intros by TM and a small group of weekend jingles/voice-overs. From the post top-40 TM era: three beautiful music packages, four Mutual Lifestyle jingle packages and a set of Mutual Lifestyle instrumentals. Bonus: the very rare Tanner assortment including “Discover Us” and parts of the KSD 1974 package resung for Big 10. We believe we pressed enough of this item to handle the demand, but please get your order in quickly to be sure.

#CW-62 WABC Generations Here’s a treat for all WABC fans… a one hour and eleven minute CD of jingles by PAMS and other companies which have never been released! We start with the CRC “Mitch Miller Sing-Along” package. Then from Roy Ross, the “Channel 77” jingles and then the classic Richard H. Ullman “One-Derful.” These first three items, all non-PAMS, are dated-sounding but quite exciting and historic. The rest of the CD is by PAMS and includes: Series 27/29 resings for “Go Go Gold,” some very weird and ethereal jock a capellas by Gleni (with the high voice!), Series 30 air versions (different from Series 30 “Go Go” lyrics), The “Ramsey Lewis” instrumental, a :60-second “Prize Power” song cut in ’68, one Gossip Game redo a capella by the girls, Spring air versions, a Series 40 “music message” resing and the “you’re on a music weekend” cut from Series 41 resung with the full group (odd to hear and used on the air). But that’s just the beginning! You get “Super Summer ’72” sung by the adult group and the kids group (really kids and adults together), Series 42 resings which say “music radio” or “the most music,” music radio a capellas, Shaft (Dallas original mono mixes with electronics added), two “music is our message in the summertime” a capellas, best music a capellas, music energy a capellas, the male a capella which sings “the best music,” an instrumental which sounds like “Ode to Joy,” and then the missing personality cuts you may remember. These include Ted Bayer, Howard Cosell, Johnny Donovan (from 42, a capellas and 33), Dan Ingram’s Electric Radio Theatre (two cuts), a Cousin Bruce Morrow a capella, and cuts for Frank Kingston Smith from Series 33 and 40 as well as some a capellas. But the list of goodies goes on! You get nine :60-second production beds which PAMS supplied to WABC in 1971 and the long-missing WABC-FM a capellas from March, 1968 in stereo. As a bonus, remember those “62 Gold” a capellas? We found them! They went from 1962 through 1972 originally. But through the miracle of computer editing, we have extended them from 1961 through 1979! This was compiled with the help of Jeffrey Gray, has been pressed in limited quantities.

#CW-63 WK Radio I don’t know how to describe this hour and 11 minutes except to say they’re all great PAMS jingles from stations that begin with “WK!” You get WKBA (Vinton, VA) 31/34 (with country lyrics!), WKGN (Knoxville, TN) 18, 26, 29, a capellas and 33, WKLM (Wilmington, NC) 18 and WKYB (Hemingway, SC) 18.

#D-06 **Today and Yesterday (1999)** Our last CD demo is a tribute to our singers with pictures of them on the cover as they looked in 1999, and as they looked as kids. Jingle demos included: Radiance, Hot 99.9, To the Point, Wish List, Continuous Favorites, On the Horizon, Truly Kool, Big Shot, Fabulous Hit Machine, Lunatic Fringe VI, Satellite Superdeal II, Urban Update, Internet Radio, Communiqué, La Nueva (Hispanic) and Big Hairy Deal. This demo represents the state of our art at the end of the 20th century.

#D-08 **Demo Masters Volume I** We finally archived all our jingle demos from the 90s and here they are for posterity. On this volume you get the best of our commercial work for shopping centers, food stores, banks, outlet centers and others. But you also get a never-before-heard custom ID package for WLEC(AM), Sandusky; WDBF(AM) Music People which features resings from PAMS 44 and Smart Set, and as a bonus, KKAM/KQMA’s Kick Butt Country and Retro-Fit. It’s an hour of stuff!

#D-09 **Demo Masters Volume II** More commercial jingles and IDs from the archives. You’ll hear a soft adult contemporary package for WHPC(AM); Good Times Great Oldies for WBNR; Pure Gold (with PAMS grid tracks) for KGAL(AM), WINX(AM) and others; some stereo custom cuts for Z-104(FM); and jingles for many commercial categories. Included in there somewhere is a package called “Sound Alikes” which illustrates how our vocal group could impersonate the artists who made the hits.

#D-10 **Demo Masters Volume III** While much of this hour is commercial jingles in varying categories, you’ll get demos for some cool ID packages too including the all-news MetroPulse III for WWJ(AM) and Real Country for WOHO(AM) (never syndicated but using PAMS country tracks). There’s also a package called “50s and 60’s” where our group imitates the big hits of the golden years.

#D-11 **Demo Masters Volume IV** An hour of the best of our vocal group’s work of the 1990s. Many of the tracks are retailer jingles, but IDs include a general demo narrated by nationally syndicated Kid Kelly, the CJ-1 original demo, “Escape” with the Dallas group, and our hot adult contemporary/CHR demo.

For the DJ or Production Director
#DJ-01 Jingle-ometer (formerly “Temp-Tunes”) Tell your listeners what temperature it is, whether it’s 3 degrees or 99! You get a sung jingle for each temperature, plus a generic weather jingle and a “weather may change” cut. It’s 99 cuts, each of which matches the CD index number… and these sound VERY 1960s.

#DJ-02 PAMS 60/60 Truly unique! This CD contains sixty 60-second instrumental tracks in stereo for production. They’re divided into musical styles: Big Band, Sports, Dixieland, Country, etc. The stereo is excellent!

#DJ-03 Another PAMS 60/60 You demanded another CD full of :60-second PAMS music beds in stereo. Use them for production or just have a party! As a bonus we’ve included a couple of 2-minute versions. Almost 70 minutes!

#DJ-04 PAMS Pre-Records Pre-1965 These were the “generic” cuts PAMS handed out when stations bought a particular series. Weather beds, instrumentals, “time to turn” sunburn cuts and even foreign country songs used for newscasts!

#DJ-05 Sono-Jox A lot of fun stuffed into 99 cuts for jocks and mobile DJs. Sonovox group names (The Beatles, Chubby Checker, etc.) and Heavy Hit of the Year countdown numbers plus more!

#DJ-06 Totalgold This CD has nothing but year sings! In fact two different ones for each year 1950-1999, complete with different style music tracks for the various decades. Each has its own CD index for easy cueing… perfect for oldies shows and mobile DJs!

#DJ-07 Stuck in the 60s Volume I So many of you with oldies shows have asked us for some authentic 60s commercials and promos that we have released a CD with 99 of them! These are from original vinyl LP production libraries from Pepper Tanner and CRC and they have a bit of light surface noise. You get a series of upbeat promos that end “this wonderful weekend with your radio,” holiday cuts, Christmas shopping jingles, four news beds, and nine :30 and :60 instrumentals for talkover. You also get Miss Teenage America jingles from 1967, and: 20-second jingles for all the car makers of the day including Chevrolet, Rambler, Studebaker, etc. You get a group of short (:15-:20 seconds) nationally-known food stores, appliance/Hi-Fi jingles, department stores, gas stations (remember Sinclair?), and misc. retailers such as Dairy Queen. No call letters in sight! Quite a CD!

#DJ-08 Stuck in the 60s Volume II You get a group of news, weather, sports and traffic cuts (including two for Action Central news….), about 30 early 60s generic jingles which are very authentic, five very up-tempo and long summer jingles from the mid 60s, about 13 generic up-tempo mid-60s jingles, one cut for each month of the year and one for each season, and hey, dig this: 4 Bat-jingles, all from Spot Productions! You also get five longer instrumental cuts in various styles. 99 cuts in all.

#DJ-09 We’ll Be Right Back…PAMS Commercials Volume I So many of you wanted authentic commercial jingles that we had to release the first batch on CD! You get 70 of them from PAMS, each with its own CD index, over an hour of nostalgic favorites including: Air Force, Dr. Pepper featuring Trella Hart, Wiener King (“more fun when you eat out”), Zip Burgers, Nationwide Insurance, Mary Kaye Cosmetics, Tonka Toys, Schick Shavers, the Davis Department Store package sung with Series 23 tracks, Amos & Andy Buick, Javelin, Wide-Trackin’ Pontiac, Renault and more! These span the years 1964-1973 and vary in length from :05 seconds to 2:38, and lengths are marked on the CD label.

#DJ-10 The Name Game Volume I Did you ever want your own PAMS name jingle? Now you can pick one from the 99 on this CD. Some are sung by all guys, some full group; some use music tracks, some are a capella. There are even a few sonovox cuts, too. All names are listed on the back of the CD for easy reference. The Flying Dutchman, Bobby Wizard Wayne, King Arthur Knight and 96 more!

#DJ-11 Countdown: The Total Package 2-CD Set -- Disc A: Vocal Group Countdowns This 99-cut CD offers sung countdown numbers from 1 through 50 featuring the PAMS vocal group. In fact, you get two sets of all numbers! Disc B: Sonovox Countdowns It’s a 64-cut CD with everyone’s favorite, the buzz-tone sonovox providing each number one through 60. Each number has its own CD index, and each index matches the number being Sonovoxed.

#DJ-12 Sonogold We already offer a CD which had sung golden years (called Totalgold), and everyone bought it! Now you can own a 99-cut CD with sonovox years 1950 through 1999. Then you get a second set of sonovox years with appropriate music tracks! Wow!

#DJ-13 TM: The Producer Volume I In the early 1970s, TM produced a library of background music, stingers and promo beds for radio stations. For the first time, we are releasing a volume of this great material in its original stereo form! Cuts 1-21 are all :60 instrumental beds. Cut 22 is a 2:48 gorgeous film score created for Coke by the late Bob Piper who wrote for TM at that time. Cuts 23 through 49 are short cuts with full orchestra varying from about :02 seconds to :38 seconds. They
make great contest and promo beds, stingers and what have you. Cuts 50 through 89 are more short beds, but they’re electronic in nature. The last 9 cuts on this exciting 99 cut CD are the synth effects used for the Shockwave package. They can be dropped on top of regular jingles to give them that great 70s sound.

#DJ-14 Music Machine If you like Pro Paks and Power-Pellas, this is for you! It’s 63 cuts that turn your show or mobile music set-up into the Music Machine. You get 5 countdowns, 11 weather intros (with and without talkover trail), sonovox drops, short instrumental, jingles and many longer machine and instrumental pads. All cuts are designed for either Music Machine or Great American Music Machine. Very 70s sounding generic elements with no call letters!

#DJ-15 Casey’s Countdown From his original 1970 set of jingles, you get a fast and slow sing of the numbers 1-40, each with its own CD index.

#DJ-16 Memory Bank Contest 2-CD Set In 1970 PAMS invented a contest with a smart-ass talking (Sonovox) computer called “The Memory Bank.” The computer gives clues to song titles, your listeners guess the songs! On Disc A you get the demo, all of the Sonovox “wild lines” and promo instrumental beds. Each Sonovox line has its own CD index for easy cueing. Disc B actually contains the contest clues that you’ll use on the air to play the game! Again, each clue is labeled and has its own index on the CD.

#DJ-17 Stuck in the 60’s Volume III National commercials from American Airlines, Doublemint and Kellogg’s and more; Pepsi pours it on spots; generic commercials for used cars, easy credit etc.; radio IDs (generic) encouraging knowledge of the proper time; fanfares and music cues; generic dated silly station jingles and more. 99 cuts!

#DJ-18 The Singing Clock— 6 O’clock Hour This amazing production by CRC must have been extremely time consuming to sing…but there is a sung jingle for each minute of every hour of the day! We have arranged it on CD so that each cut has its own index for easy cueing…one hour per CD. On this CD you get individual jingles for 6 o’clock, 6:01, 6:02, etc. Each CD index matches the minute, i.e.: 6:45 is cut 45. They’re very short and very 60s sounding. Perfect for any oldies show.

#DJ-19 The Singing Clock— 7 O’clock Hour See above description, but this is the 7 o’clock hour. It does not specify AM or PM, so you can use it morning and night!

#DJ-20 70’s Production Playground Volume I 99 cuts of fun from the decade that brought you disco and the wocka wocka guitar. All of these jingles are generic, meaning no call letters. We start out with seven beds from WMEX circa 1974 including short stagers and :30 and :60 promo tracks. Then on to WIND from the same year: more instrumental beds, weather intros, news sgs and more. Then from WMAQ (before it went country) you get eight great and powerful beds. Cuts 26-40 are plain and pure 70’s production music, mostly in 1:00 lengths, but many also come in longer varieties. Cuts 41-55 are Tanner Super Shotguns with phrases like “we’ve got the music,” “you’ve got the right number,” “flashback,” and “Billboard Remembers.” These are in stereo and we give you three instrumental stingers, too. Mix and match these with cuts 68-99 for your own customized jingles! Cuts 56-60 are the news module cuts from PAMS Series 42. Odd but cool. Cuts 61-67 are the PAMS Series 44 pre-records. They’re all based on the theme “the music’s on us,” mostly in instrumental form. The rest of the CD (cuts 68-99) is stereo a capellas. They say “FM 92,” in fast and slow tempos, all the way up through “FM 107” in fast and slow tempo.

#DJ-21 80’s Production Playground Volume I It’s a 99 cut, one hour and seven minute generic (no call letters) CD of the best of the 80s from Media General (William B. Tanner), and it’s all in stereo! You get 37 instrumental production beds in :30 and :60 lengths, 4 complete commercial campaign sung jingle packages for advertisers with :30, :60 versions and instrumental tracks, dozens of electronic, tymph, vocal, instrumental and blues short production pieces…and a whole stack of :05 and :10-second top of the hour instrumental stagers. It’s ready to air or use in the production room and each cut has its own CD index for easy cueing!

#DJ-22 Stuck in the 60s Volume IV Remember all those “take a lively companion wherever you go…take a portable radio” jingles from the 60s? They’re right here, along with more generic (no call letters) top-40 jingles and lots of cool commercials from our favorite decade. You get Dr. Pepper jingles, jingles encouraging you to get out and vote (“give a buck …to the party of your choice”), short instrumental stingers, silly sung jingles that say more news any moment, big show radio, time and temperature and much more. You get commercials for Chevrolet, Dentyne, K-Mart, Motor City Dragway, Mustang, Royal Crown and Terryton Cigarettes. You even get advice from Lesley Gore, Astrud Gilberto, Brook Benton and the Johnny Mann singers as to what you should be listening to! 99 cuts.

#DJ-23 Hooked on the 70s Volume I The concept is similar to “Stuck in the 60s,” but this is all material from the “Me” decade! You get a stack of 7-Up commercials from back when it was first called the “Un-Cola,” including a great “Let’s All Go to the Lobby” recreation featuring voice talent Paul Frees. There’s also a group of commercials for 7-11, sung with the
Dallas vocal group. Next up is a group of 60-second stereo commercial jingles PAMS produced in the 1970s. Finally you get about 25 pieces of instrumental production music from that decade. Each cut has its own index and there’s over an hour and five minutes of material guaranteed to take you back thirty years.

#DJ-24 Stuck in the 60s Volume V is a continuation of this highly successful series of production elements, jingles and instrumentals to spice up your oldies show. It’s an hour and five minutes of material with a total of 92 individual CD indexed cuts. The highlights: a great :60 second sung jingle called “A Whole New World of Sound;” many cuts for automobile, gasoline and tire dealers such as Enco, Gulf, Firestone, and Phillips; 23 Christmas-related jingles including the Andrews Sisters-like :51 second version of “Jingle Bells,” the longest DJ intro ever recorded (1:31!) and boy it is goofy!; 17 :60-second instrumental beds and five instrumental beds between 1:41 and 2:00 long. The latter are all in “Beach Blanket Bingo” style early 60s rock. A great assortment of generic (no call letters!) stuff.

#DJ-25 The Singing Clock—Comprehensive Version Thanks to your requests, we created a CD of the Singing Clock with all 12 hours represented! You get goofy and dated singing times including the top and bottom of the hour as well as :15 and :45 past for every hour of the day. Each of the 48 sings is provided in a short and long version with its own CD index for easy cueing. 96 cuts in all!

DJ-26 We’ll Be Right Back...Volume II Apparently a lot of you love to drop in these authentic old commercials from the late 50s through the early 1970s. On this volume you get 99 more great cuts, about 58 minutes of material in all! Categories include Appliance Dealers (Amana, Maytag, RCA Whirlpool, etc); Cars, Trucks and Related (Flying A Gasoline, Chevy Chevelle, Honda Scooters, etc); Cigarettes (four classic commercials for Chesterfield featuring Bob Hope and Bing Crosby!); Clothes, Shoes and Jewelry (Red Goose, Zales, etc); Drug, Food and Variety Stores (Food Fair, G.C. Murphy, K-Mart, Kresge, etc); Eats and Drinks (Diet-Rita Cola, McLaughlin’s Manor House Coffee, Mogen David, etc); Fast Food (Big Boy, Kentucky Fried Chicken, McDonalds); Misc. (Big Red Gum, Dial Finance, Mayflower Moving, Real Kill Bug Killer, etc.); Movies (Around the World in 80 Days, Frankenstein/Captain Kronos, Hitler’s Last Ten Days, etc.); Paint Stores (Dutch Boy, Glidden, etc.); Personal Care (Adorn, Halo, Ipana, etc.); Stamps (S&H, Top Value); and Transportation (Northwest Orient Airlines, Evinrude Outboard Motors, etc.). Great stuff!

#DJ-27 90s Production Playground Well we have similar CDs for the ‘70s and ‘80s...now you get 60 (!) :60-second instrumental beds which we produced in the ‘90s. Styles covered are adult contemporary, rock, novelty, country, oldies and dance/urban. All selections are in stereo and were hand-picked from our best commercial tracks. Great for talk-overs!

#DJ-28 Stuck in the 60s Volume VI A lot of Christmas material on this one! It’s 99 cuts, all generic (no call letters) material that will put your radio show firmly in the right decade! Cuts 1-15 are Christmas Countdown jingles...and each index tells you how many days til the holiday. For example, cut 7 says “Seven more days til Christmas.” These are different from Christmas Countdown cuts found on other CDs. Cuts 16-37 are personal holiday wishes from recording stars like Jan and Dean, Michael Jackson (of the Jackson 5), Smoky Robinson, Brian Wilson, and even Granny and Jed Clampett! Cuts 38-47 are additional Christmas jingles from a CRC library, and cuts 48 through 57 are New Year jingles. The rest of the CD is non-holiday material including 10 “Orcha-Pellas,” which are typical top-40 jingles of the day; there are 12 other cool format jingles providing intros for time, temp and news. Cuts 80-90 are “shop downtown” jingles, cuts 91-95 are :60-second Miss Teenage America cuts (different from ones elsewhere), and the last four jingles are “constant companion” cuts. Wow!

#DJ-29 Stuck in the 60s Volume VII More of those goofy, dated ‘60s formatics and promos you can’t do without. Cuts 1-10 are :60 and :30 jingles (country, rock, gospel, MOR, bluegrass and easy listening) that sing about “radio, the sound of service.” Cuts 11-35 are ultra-short a capella DJ intros like, “Here’s Lee.” Names included besides Lee are Bob, Jim, Jack, Jeff, Ted, Andy, Jerry, Don, Tom, Paul, nick, Bud, George, John, Roy, Bruce, Pete, Kenny, Robin, Bill, Mike, Dean, Gene and Eddy! Cuts 36-41 are extremely hokey generic jingles such as “tell me the weather,” “very best in music and news” etc. Cuts 42-48 are short instrumental beds. Cuts 49-55 are instrumentals which build in stages for important announcements. They vary in time from about 13 to 35 seconds. Cuts 56-59 are more promo beds. Cuts 60-67 are 1:00 instrumentals in that groovy 60s beach style. Cuts 68-84 are short sung “Peppers.” That is, vocal promos sung by Pepper Tanner from their libraries. Lyrics include: “play that game that’s fun,” “notice anything new?” etc. You’ll find silly uses for them, we’re sure. Cuts 85-87 are long, generic holiday jingles for Thanksgiving, Christmas and New Years. Cuts 88-95 are very short a capella formatics such as “fun and games,” “more music, home of the hits!” (in fast and slow), “fun weekend,” etc. Cuts 96-98 are long instrumental jingles with short sung fronts: “the sound of traffic,” “the sound of service,” and “the sound of news.” Cut 99 is an interesting demo (not for air) that tells you how to edit generic jingles!

#DJ-30 80s Production Playground Volume II A fresh batch of 64 (60-second) instrumentals and as a bonus, you get a group of shorter length stagers and workparts! Contemporary, Easy, Novelty, Country and Jazz styles are covered. A lot of good material.
#DJ-31 TM The Producer Volume II Some of the sweetest production music of the 1970s is featured on this 65-cut, all-stereo CD! It contains 14 up tempo 60-second instrumentals, 17 medium 60-second instrumentals, 9 slow 60-second instrumentals plus 24 short, thematic news and feature intros. Special bonus: a minute and a half stereo sung/spoken jingle for “The Producer!” It all sounds great and is just not like anything being recorded today. Over an hour in total.

#DJ-32 We’ll Be Right Back Volume III (Celebrity Version) Tommy Sands and Ed Sullivan voicing PSAs for the National Safety Council! How about Stan Freberg and Vincent Price telling you to be careful on the 4th of July? Tab Hunter, Ed “Kookie” Byrnes and Milton Berle for the Red Cross? You get all those people doing dry-as-toast public service announcements plus Bobby Rydell, Boris Karloff, Anita Bryant, Rock Hudson, Connie Francis and Duke Ellington! Also included are really old and hokey commercials for Camel and L&M cigarettes, Coke (“Nothing Like a Coke!”), Pan Am, Parkay, Toyota and more. Special bonus, a real memory flogger: “Don’t cross the street in the middle of the street in the middle of the block.” You’ll remember this sing-song-y jingle from the mid 60s because it drove you crazy then and it will drive you crazy now. Over an hour and nine minutes; 89 cuts on the CD. It’s commercials and PSAs from the dusty ‘50s and ‘60s which will give your oldies programming that touch of corn!

#DJ-33 Goofy Sponsors In 1974, PAMS undertook one of the largest and silliest jingle projects ever! Even dumber than the CRC Singing Clock (which sang every minute of every hour of the day). Even more ridiculous than Futursonic’s Calendar Girl (which sang each day of every month of the year) As an audition for a client the vocal group sang 600 individual grocery items and brand names. Some included: weenies, whole chickens, cotton swabs, kidneys, masking tape, mutton, nuts, pot (!?!), and shrubs. To make this project 100 percent stupid, we painstakingly restored these jingles, fixing the levels, making the EQ consistent and de-noising them, too. The best are featured on this 99-cut CD. Thus, a DJ who owns this disc will be able to say on the air, “This hour of the Micky Montell Show is brought to you by…. …(hit the CD) “Pork chops!” Or, “The Hit Parade Countdown on Oldies 106.3 is brought to you this hour by….” (hit CD): “air freshener!” Here is a full list of these cuts: Air fresheren, Ajax Artichokes, Asparagus, Avocados, Baby food, Bagels, Barbecue, Barbecue sauce, Beach towels, Buttermilk, Cauliflower, Canned ham, Chees spread, Chicken parts, Chuck roast, Coke, Cotton swabs, Crab meat, Cucumbers, Dental floss, Detergent, Dill pickles, Dry beans, Fertilizers, Fresh meat, Glue, Halloween pumpkins, Hard salami, Hot dogs, Hygiene supplies, Ketchup, Kidneys, L’eggs, Lemonade, Lima beans, Liver, Lobsters, Low fat milk, Lunch meats, Margarine, Marmalade, Marshmallows, Misting tape, Mexican food, Mixed nuts, Motor oil, Mouthwash, Mutton, Nuts, Oatmeal, Panty hose, Paper cups, Paper napkins, Paper plates, Paper towels, Peat moss, Pencils, Pepsi, Peanuts, Pie, Pineapples, Plastic bags, Plums, Pork chops, Potato chips, Potato salad, Pot (?!?), Pot plants (?!?), Preserves, Produce, Prunes, Radishes, Roast beef, Rutabaga, Shoe polish, Shrubs, Snap beans, Soups, Sour cream, Standing rib roast, Stew meat, Sweet potatoes, Tamales, Tea bags, Tools, Tooth picks, Turnips, Vaseline, Weenies, Wieners, Whole chickens, Zucchini. Extras: Delicious, More to come, Where else? Something special, Tastes good, That’s all!

#DJ-34 News Pak Just like a Pro Pak, but all news elements! We took 99 of the best generic (no call letter) cuts and put them on one CD. You get sounders originally created for KCBS(AM), San Francisco by Century 21, and the following packages by Ken R. LLC: WBBM (AM) Chicago, WCBM(AM) Baltimore, WKEF(TV) in Dayton (with a strong “NBC” logo), WTGV(TV) in Toledo, and WWJ(AM), Detroit. Included are intros for news, sports, weather and traffic as well as :30 and :60 promo beds, some of which are done with synth and some fully orchestrated.

#DJ-35 The Nicest Music A 99-cut generic (no call letters) CD similar to our Pro Paks, but these cuts are all stereo and designed for stations playing “the nicest music.” Included are three versions each for all the basic FM frequencies, for example “FM 92” done in fast, slow and weather variations. Included: FM 92 through FM 107. (This takes up about half of the cuts.) Please note this CD does not include all the “in-betweens” such as FM 92.5, etc. The rest of the CD has beautiful stereo sings of slogans such as “where the nicest people hear the nicest music,” and “stereo gold.” Tracks from WRIZ and WFAA-FM packages are used. As a bonus, you get year jingles (1960-1974) with and without instrumental accompaniment.

Would you believe, this disc is an hour and 19 minutes?

**#EX-05 Le Differencé (Demo and Highlights)** In the late 1970s and early 1980s, Bill Meeks created a post-PAMS production library called, “Le Differencé” which featured background tracks to his own ID packages. We have selected the best of this 25 album set, restored the audio to pristine stereo sound and organized it onto this hour and seven minute CD. The largest portion is ID tracks, but there are some colorful (although disco-sounding) :30 and :60 instrumental beds, too. When you listen, you’ll get a good idea of the creative mind of Bill Meeks.

#Johnny Mann CDs

**#JM-01 The Real KHJ by Johnny Mann (2 CD Set) Wow!** Through a new licensing agreement with the genius behind these jingles, we are happy to announce this ultimate collector’s item. **Disc A** has over 130 original Johnny Mann KHJ jingles as purchased by Bill Drake. These include a capellas and instrumented vocal cuts from Series 1, the famous Drake “tymph roll,” news intros, promo beds and the complete set of Bill Drake liners (“One year ago today” through “fifteen years ago today.”) The best part is… all of the jingles (except the 42 different jock cuts) each has its own CD index! This means you can instantly cue any of the weather jingles, news intros, individual jingles, or transition instrumentals. (We would have given you a separate CD index for each of the jock jingles too, but we were limited to 99 cuts on the CD.) **Disc B** is a very special item. It’s a one-hour interview with Johnny Mann, divided into six separate CD indexes by subject matter. Hear him describe how the famous KHJ a capellas came to be, learn about his other vocal session work backing up entertainers such as Frank Sinatra. Hear his comments about Hugh Heller and listen as he identifies and describes his legendary vocal group from the 60s. There is a full-color picture of Johnny on the cover. Definitely the item for the discerning collector.

**#JM-02 Johnny Mann’s Other Greatest Jingles** We’ve assembled more jingles from Johnny that you have never heard! You get: 2 cuts from KAKC, an entire swingin’ custom package from KEWB (it is hot!), 3 stereo a capellas from KFRC(AM) (!?!,) KFRC cuts Johnny’s group sang for Cuff Co., stereo cuts from KPOI (Honolulu) with the Dallas group from Drake Series II, 6 jingles from KYNO, a great big band package in stereo from WASH-FM, 5 cuts from WHBQ, 4 stereo cuts from WOR-FM, 5 cuts from WRKO, jingles from the CHUM group, WYRE, KSLQ, an oldies package for
WTAE in Pittsburgh, another entire stereo package for WASH-FM (“Wash with the Stars”) and an a cappella sampling from KREM, CJON, CJTR, CJWN, CJOX and CFUN. If you like the Johnny Mann singers, you’ll love this hour long CD.

#JM-03 Johnny Mann: Let the Games Begin (in tribute to the National Senior Games Association and the USA) If you like the Johnny Mann singers, here they are in a CD recorded in 2000 featuring patriotic songs such as Yankee Doodle, Dixie, America the Beautiful, Battle Hymn of the Republic and more! All the arrangements are by Johnny himself.

#JM-04 Best of the Johnny Mann Singers This CD doesn’t contain any jingles… it’s a 1995 collection of your favorite hits from the past including Up, Up and Away, Cherish, Walk Right In, Daydream, Mrs. Robinson, Do You Know the Way to San Jose and four more. It’s in stereo and a real collector’s item. The arrangements and singing are all top notch and a real tribute to Johnny and his talent.

#JM-06 Johnny Mann Hit Kit Unbelievable! This CD is similar to a Pro Pak or Power-Pellas in that it has 99 cuts, all generic (no call letters)… but it’s all material by Johnny Mann!

#JM-11 Johnny Mann’s WPOP Sessions You will hear the master producer at work as he guides his vocal group through an entire hour-long session of a capellas for WPOP. Perfect fidelity on this material and the final “good” takes are collected at the end for easy reference. A rare peek behind the scenes with Johnny’s famous LA group in 1967 and 1968.

#L-01 “The Last Ken R. CD” This CD available May 1, 2005

As we wind down our business, we wanted to leave our friends and jingle fans with one final collectors’ CD to remember us. It’s an hour and fourteen minutes of never before released requests and PAMS favorites including these WABC hits: THE chime (finally in the clear!), Series 44 air versions and re-dos and two custom instrumentals, American Music a capellas, “Thanks, Harry” cuts and Heavy 100 of the Year (1 cut from Series 40C and several a capellas). But this CD contains more than just WABC jingles! You also get the rare :60-second WFRS College Song (using the PAMS Tallheimer’s track), generic (no call letters) echoed Sonovox weather words (different from those on KLIF Klassics Volume III, strangely), Dayton’s WTUE Solid Rock I and II in severe stereo, and two custom PAMS packages from Chicago’s WBBM-FM, also in stereo. By request, you also get the “Wonderful WORM” jingles from “Up and Down the Dial,” but presented here in the clear including unused versions. And last but far from least, two brand new re-sings produced for us by Jon Wolfert using very long and obscure PAMS tracks. As these were the last jingles Jon ever produced for us, they are quite special.

#M-09A Drake Tribute 2-CD Reissue  Last year we offered a 2 CD set with this name, and much of it was taken from a double demo album put out by Drake-Chenault in 1973. We now have software capable of making these demos from vinyl sound like master tapes, so we have completely remastered this two CD set. The entire double album is here including demos for Drake Jingle Series 1, Drake Jingle Series 2 (AA), The History of Rock n’ Roll, The Golden Year, Hit Parade, Solid Gold, Classic Gold, Great American Country and Top 100 of the 60s. As a bonus, we filled out the second CD with other great jingles from the same year, 1973. You get the entire Pepsi radio campaign from that year (pop, adult, Spanish and country featuring Lynn Anderson). The slogan is, “You’ve got a lot to live and Pepsi has a lot to give.” Then as a bonus, you get the PAMS short Army jingles, each with its own index for easy cueing. Each disc in this set contains over an hour of material. The Pepsi jingles and Army jingles have never been released on CD before. The original Drake 2CD Tribute is now out of print. Note: Because this is a reissue and many of you have the old set, we are keeping the price as low as possible for a 2CD set.

#M-13 Lunatic Fringe I-V  We’re a little embarrassed by these demos, but you asked for it! Between 1996 and 2000 we were asked by a number of FM rock stations to create, well, lascivious and scatological versions of classic PAMS jingles. In plain English… they’re filthy! Five demos plus a special montage of alternate lyrics and stations rated “R.” We warned you!

#M-14 Network News  An hour of nothing but network jingles and themes in the clear featuring the ABC post-1968, NBC and Monitor, Mutual News (Black, Spanish and Contemporary) and NBC News & Information Service themes.

#M-23 **Scores! Volume I** Some of the most awe-inspiring big band and orchestral projects ever recorded, some vocal and some instrumental. These range from a couple of minutes to 15 minutes and illustrate the very best arranging, playing and singing the company ever did. You get Buick 1965, Dr. Pepper film score, Northwest Suite (in stereo), RC Cola Fitness soundtrack, SID film score and TV 13. About 58 minutes.

#M-24 **Private Stash** KGW experiments which turned into Series 25, the KMPC package Bill Meeks produced in 1980, a recording session for the WABC 1970 DJ a capellas including outtakes, the rare WABC Series 34 DJ jingle (with no name inserted) and WINX jingles (in stereo) which were recorded for a David Frye comedy album in the early 70s (it made fun of Richard Nixon!). You also hear WPOP’s two cuts from Series 31 plus their a capellas. Then the Colorway radio spots… IN SPANISH! Mucho cool-o! Next you get three beautiful Escape medleys in stereo. And how about four songs PAMS recorded for Muzak? Other treasures include moog experiments from 1967, some Series 30 sonovox experiments, Series 43 jingles for the Texas National Guard, two versions of Trella Hart’s “Turn It On” song and a bonus cut featuring the PAMS whistler. Over an hour!

#M-25 **‘80s Thang Volume I** You get five packages the late Bill Meeks produced after PAMS officially closed in 1978 including Hit-Motizer, K-Lite, Outrageous Wave, Someone to Turn To and We’re Gonna Get ‘Ya. Then we are releasing three of our own packages from the ‘80s. Ram Energy sounds a lot like Miami Vice. Z-104 was a hot rocker in Frederick, MD and you’ll hear a number of custom cuts produced for them. Then you’ll get “Goin’ In Style,” which is a parody rap we produced for WIOI(FM) here in Toledo in response to a local porta-potty crisis. You’ll hear the song, sung by our singers and the WIOI jocks, then you’ll hear Ken R’s phoned in comments on the air! It’s 59 minutes from the ‘80s.

#M-26 **Gotta Have That!** From TM the complete, digitally restored stereo TM song. Then, the TM song this time resung (in mono) for Eastman Radio. Both of these, recorded in 1972, mention dozens and dozens of call letters, and they’re pretty funny, too. Also from TM: the Hicklin demo. It’s the guy who put together the famous LA vocal group. Then finally from TM a breathtaking stereo patriotic medley sung by none other than Bugs Bunny! The late Mel Blanc and the entire huge TM orchestra and chorus perform an amazing song for Mariott’s Great America. From PAMS you get WNDR 31 in which every cut features special “request” lyrics. Then WABC 1969 Christmas moog/a capella grid. You also get three beautiful stereo songs created for the Escape format in 1972 including “When You Wish Upon a Star”, Jon Wolfert, now president and owner of both JAM Creative Productions and PAMS Productions worked at college radio station WTNT in the late ’60s. Here’s the PAMS jingle package he produced in 1972 for his little station, in stereo featuring cuts from a dozen different packages.
#M-27 **Jurassic Jingles Volume III: Spot Productions** One of the best-kept secrets in the jingle biz was this Fort Worth producer. Located a few miles west of Dallas, Spot Productions used many of the PAMS singers, writers and arrangers. In fact, one of the owners of Spot, Lew Gillis, played trombone on PAMS Series 18! On this hour plus CD you get the following demos: Big Wide Wonderful World of Music (KITE), Funtastic (WPGC), A capellas (various stations), New Experience (for KIOA and featuring Trella Hart), Personality Plus (KBOX), PR Series and Soft Touch (both WFBR) and That Man (WPTR) which was a take-off on the 1966 Batman craze. These jingles are as good as anything PAMS created. Why didn’t more people buy them?

#M-28 **Pepper Tanner: The Final Days** The metamorphosis was complete. From Pepper Sound Studios to Pepper Tanner to William B. Tanner to Media General in the 80s. Here are 15 packages (in stereo) from Media General’s Radio ID Division before it was taken over by TM/Century. These are some of the last ID jingles recorded in Memphis. You get an hour and seven minutes including: All Hit Country, Energy Source, K-102, Music and More, Propulsion, Rockin’ Easy, Something Special, SS A/C, SS CHR, SS Country, Synsations, Talking Radio, TV Demo, We’ve Got It On and X-Celeration.

#M-29 **All Request Volume V** Our collector friends around the world have asked for these items in dub orders, so we thought you’d enjoy hearing these PAMS productions, too! You get KORD 18 (with some Series 16), WHYN 29, WJJD 15, WNBC custom 1975 (more complete demo), Escape III demo (stereo), Casey Kasem’s 1970 American Top 40 Moog Theme, and as a bonus, an interview with Dennis Meeks, son of Bill Meeks who founded PAMS. It’s an hour and six minutes of unusual material for your collection!

#M-30 **Through the Glass Volume I** We let a tape roll for the entirety of the last few vocal sessions we held in early 2000. On this first tape in the series you get to hear our vocal group sing PAMS jingles, you hear the outtakes, the silly comments, the laughing, the screwing up. Over an hour of behind the scenes from the last days of our recording studio divided into several segments for easy listening.

#M-31 **Good Old Days Volume I** Let’s go back to those thrilling years of Top 40: 1959-1962 when radio was more exciting! This CD includes the following PAMS jingle packages: KALO (Little Rock) 15; KNAK (Salt Lake City) 16; WHB (Kansas City) 15; WISH (Indianapolis) 15/16; WISM (Madison) 16; WQTE (Monroe/Detroit) 14 and WRIT (Milwaukee) 16. It’s an hour of classics!

#M-32 **Benton Bowles Creative Review** On February 26, 1957, one of the largest advertising agencies in New York held a party for their clients and staff. Also present at the party were a live vocal group and some of the best musicians in the city. What resulted was a half-hour of live jingles and comedy! Sit in and hear jingles for Post Cereals, Prell, Studebaker, Ivory Snow, Carling, Zest, Pepto-Bismol, Camay, Tide, Maxwell House, Parliament, Hellman’s, Crest, Johnson’s Jubilee, Pin-It, and Ansco Film. A real collector’s item. The original album was provided by collector Ron Harris and it was processed using CEDAR De-Noise and CEDAR De-Click to make it sound great!

#M-33 **Classic TM: The 70s Volume I** In the mid 70s the jingles TM turned out were as good as anything in the business. You get the entire Listen to your City campaign for KFMB (San Diego) sung in LA, a stereo demo for The Producer (their library service) and the infamous Shockwave demo for WCFL including smug narration which explains this unorthodox approach to jingles. You also get two shotgun packages, one for WJLB, Detroit and one for WOOK in Washington, D.C. It’s an hour and five minutes of great stuff!

#M-34 **Jurassic Jingles Volume IV: Futursonic** Great jingles in stereo for KONO, KOL, KLIF and WFUN. Then the DJ themes for various stations, the Image package for KOL, KRIZ and WFUN, Swingin’ Radio for WMAK, Variety Fair for CHUM and KWK and the Versatiles (Days of the Week)! This is one of the best top 40 packages ever recorded and you hear it as done for CHUM and KLIF. About 59 minutes in all.

#M-35 **Jurassic Jingles Volume V CRC** This hour and five minute CD contains: Cosmo (a soul package you have NEVER heard), The Singing Clock demo (sung by both the Dallas and Memphis singers), The Exciters in STEREO for KPAM/KPFM, the rare KLIF Twist (it’s a 2 minute song!), Smile for KVIL, male a capellas for WFBG, The Seasonals package all for CKLW, and much more. You also get a better copy (more complete and excellent fidelity) of Series 25 “Big Band Bit,” conducted by Quincy Jones for KFWB, WFUN, KFWB and WWDC! And that’s not all…you also get the strange late ‘60s Series 48: Flower Power for KVIL and two country packages, Series 49 (Top Gun for WGBG) and Series 54 (The Sound Is for WZIP).

#M-36 **North Coast Archives Volume I** Between the years of 1980 and late 1999, we produced a lot of jingles in our studios in Toledo. Most were PAMS resings, but many were other tracks from our own library. This first in the series contains about a half hour of oldies jingles (many different series) recorded for WQFE (Indianapolis) and about a half hour of big band
jingles (including Smart Set) produced for WLUX (Long Island, NY). It’s well over an hour of great stuff, which has never appeared, on our demos.

#M-37 Have a Happy Day This package was a huge hit in 1971. This hour-long CD includes the demo for this concept, and PAMS jingles for WKDA, WSO, WSUB, WTVY-FM (stereo) and WVOK/WBAM. You also get about 15 actual happy day comedy bits and generic jingles you can use...each with its own CD index for easy cueing.

#M-38 NBC/Monitor You get three different NBC top of the hour news sigs going back to the ‘60s, the famous NBC chimes (de-noised by CEDAR), dozens of Monitor jingles not included on other CDs and the entire PAMS 1972 NBC/Monitor jingle package. There are also four excellent and complete versions of the Monitor Beacon for complete authenticity. Fifty of these cuts have their own CD index for easy cueing. Over an hour and five minutes of great nostalgic material!

#M-39 NewsTalk Volume II PAMS 1972 KBOX news intro, PAMS KNX-FM stereo news moog cuts from the early 70s and a very strange Pepper Tanner package called “All News All The Time.” You also get PAMS Texas State Network news cuts, TM’s WKCN talk jingles from the ‘70s, the PAMS WLOL “People Talking” moog/a capella custom, First News 10 Honolulu (a TV package from TM), Pepper’s Talking People demo for WCAU and two news talk packages from VTS recorded in Dallas. Did you ever hear the famous KLIF “Singing Newscast?” You won’t believe it! The bonus item is the Century 21 1973 singing EBS test (generic, no call letters). It’s an hour of eclectic material.

#M-40 Adventures in Stereo Volume I PAMS made a lot of very interesting jingles in stereo in the early ‘70s! Includes Stereo Island from KWEH, WDH, KFMK, WIOQ, WPRO-FM and WQMG; Revolution ‘72 and series 39 from KWHP; 42/40 from WVM and a short assortment from 18, 27, 31, 35 and Philly Story recorded for WKZQ. #M-42 Christmas Wish Volume I Finally for all those who requested a CD of Christmas elements! You get an early 60s PAMS feature called “Santaland Reports,” which is cute and corny. It features dancing penguins, singing reindeer, a swingin’ Santaland band, a march of the toys and a lot of horrible puns delivered by Holly B. Jolly, your host. Also on this CD are three short KLIF Christmas instrumental cuts, five chime renditions of classic Christmas songs, and 17 Christmas production beds in varying styles and lengths from :30 seconds to 2:30. Bonus: two generic stereo a capellas from the Ken R. singers: “Your Home for the Holidays,” and “Have Yourself a Merry Little Christmas.” It’s 99 cuts in all with over an hour of material on one CD.

#M-43 Jingles on 33 1/3 Volume I In the ‘70s many jingle companies released full albums with their demos and this is a group of the best of them! You get the massive Tanner “Enjoy Yourself,” featuring former PAMS singer Marv Shaw and “Dynamic Denton” by former PAMS writer/singer Jodie Lyons. Also included: a hugely orchestrated presentation that TM prepared for the 1980 NAB convention. It’s jammed with jingles and scores by Tom Merriman featuring the full TM sound. You get four PAMS Chevy jingles from 1959, other PAMS Chevy jingles from 1966, some big band TM jingles for Whitman Ford (one of which features Trella Hart), three other PAMS Ford dealer jingles, and a full PAMS presentation from 1974 called “You Auto Think Twice” that was designed to save the American auto industry. Cuts 14-39 on the CD are all various musical treatments of “In My Merry Oldsmobile,” running in length from 1:00 to 2:00.

#M-46 Tannerama Volume I William B. Tanner Company really hit its stride in the 1970s with a better vocal group and better recording techniques. #M-52 **Interviews I** This is a non-jingle CD and you can even use these 70s era tracks on your radio shows and on the Internet if you like! Dionne Warwick, before she was a psychic and marijuana smoker. Moe Howard of the Three Stooges was interviewed 1973, about a year prior to his death. Jimmy Dean, trying to promote his then-new Jimmy Dean Pure Pork Sausage. Ken was bound and determined to talk about his music and his life and not let him sneak in any cheap commercials. Soupy Sales was another icon of the ‘60s. With this guy, all you have to say is, “Hi, Soupy, how are you doing?” and he’ll talk and be hilarious for ten minutes. Paul Anka stopped in Toledo to appear live on stage. When Ken interviewed Anka in his hotel room, it was with a cheap cassette recorder. But even so, Anka was gracious enough to slide over to the piano and sing his new hit, “Havin’ My Baby” live! Over an hour of interviews in all!

#M-53 **Blowtorch Volume II** More jingles from 50,000-watt AM giants of yesteryear. Includes the stereo KCMO (Kansas City, MO) record-length songs for the Kansas City Chiefs! You get “Just ___ more shopping days,” (Tanner countdowns from ten days til one day in stereo); (9) :60-second instrumental production beds; (13) :30-second instrumental production beds; 2 :40-second instrumental production beds and one 2:35 instrumental production bed. Each is a holiday song and most feature sleigh bells and or chimes with the music. (One of the :30-second cuts is JUST sleigh bells for your production use.) Then you get (11) short generic Christmas jingles of under 10 seconds each. Some are instrumental stagers, some have a short phrase at the front. Next is a :60 donut that says “Just a few days left until Christmas” at the front and back. These are followed by (3) generic a capellas (two for Merry Christmas and one for Happy New Year). Next you get six short chime statements which are perfect as top of the hour stagers to talk over. These are followed by (8) marvelously dorky old Pepper Tanner generic Christmas jingles from the 1960s. The next section is a Christmas countdown featuring a little girl named Susie and a talking, er, uh, whistling bird named Robin who help you figure out how many days til Christmas. In a few cuts a chorus sings and Santa talks! These are different from the Santaland Reports available on another of our discs. The last ten minutes of the CD are not designed for air, but they’re enjoyable Christmas jingles from PAMS including packages from 2SM (Australia), KFDI (Wichita, KS), WNOR (Norfolk), and six jingles that Sundance Productions created for WABC. There are 91 indexes on the CD, but well over 140 jingles in all!
#M-56 **Peyton Park: The SOUL Man!** You’ve heard him sing and scream on a lot of great PAMS jingles, but this CD has material you have never heard! You get a half-hour interview with Peyton himself who is still alive and well. In the first half you get details of his early life and his appearances on camera on the TV show “Dallas” and in movies. In the second half you hear him talk about his friends Bill Meeks and Tom Merriman. It’s very historic! You also get some great soul PAMS jingles he’s featured on from WHAT and WUST. Then you hear Mr. Park sing some commercial jingles and some very rare live recordings of him singing and playing the sax in a nightclub! It’s an hour of cool stuff!

An hour and ten minutes including CKEY (Toronto) PAMS 20; WBEN (Buffalo) TM Simply; WCIN (Cincinnati) PAMS 22, WERE (Cleveland), WHDH (Boston) and KRLA (Los Angeles/Pasadena) older jingles from companies unknown; PAMS WUBE (Cincinnati) 33 and WXLO (New York’s 99X) PAMS Energy.

#M-59 **MIA Volume I** We now have excellent dubs of some of these packages which were “missing in action.” While some of these may appear in one form or another on our other CDs, these are in all cases, better or more complete versions. They have also been processed with CEDAR De-Noise ® to remove any slight hiss or hum. They sound GREAT! On this volume you get the complete Series 28 “break-up” pre-records. These are funny little bits meant to be inserted between the call letters of your jingles, or anywhere else. You also get in the clear, the 1972 Peyton Park song “PAMS Keeps Comin’ On” used at the front of the Series 43 demo. Next comes the KFJZ Shaft air versions and shouts, the demo for Philadelphia Story (WFIL), Super Country for KLAC, WDGY Series 30, WFFA TV’s brief but very cool news package and one more surprise. The last item is poor fidelity but interesting to listen to. Jingle collector Ken Justiss describes and plays aircheck samples of the “WX LW Has Balls” promotion. You just have to hear that one! This CD is over an hour.

#M-60 **MIA Volume II** Includes these all-PAMS hits: the Audition Sigs demo, Colorway radio commercials, the Dr. Pepper drive-in movie songs (clean and dirty versions with incredibly wonderful fidelity for the first time), the Holidaze demo for WABC, KNOE-FM Stereo Drake rip-off jingles and a capellas, the strange Australian Peters Ice Cream jingle (one version is rather scratchy but with delightful lyrics… the second version has had some of the scratches removed), Sig Alert (later called “Clyde” demo for WKNR), Superstar demo (a syndicated show with some jingles), the Tuned Young News Pre-Records (music to introduce news stories from different countries here in sparkling fidelity!), and finally a great copy of The Voices of PAMS a capella demo. If you’re missing any of these, get this hour long CD.

#M-61 **MIA Volume III** It’s an hour long! You get these PAMS packages with perfect fidelity: 1973 commercials, A Christmas Package (WWDC, KLIF), Country 1 (KKCN), Frisbee (slightly different demo for KLIF), New Country (KBOX), the final horribly sung package for Radio Luxembourg by French singers over PAMS tracks (we were missing a few of these jingles before), KNOW Pop Tops (these are the PAMS group singing over the intros to popular songs to sound like the original artists), the famous WABC Series 29 Custom DJ jingles (Ingram, HOA, Greer, Brucie, etc.), WFFA Series 40 air versions (longer and more interesting than the demo to Series 40), the WLS 1970 demo, the WLS 1971 demo (yes, they are different from each other), and WUBE Country Pop Tops.

#M-62 **Final Daze** In the last month of 1999 and the first three months of 2000, we recorded our last jingles before closing our studio. This CD has one hour and ten minutes of the best in STERE O! There is a brief Singers Update montage and a montage of Dan Asvitt’s last assortment that includes PAMS 25, 26, 34, Energy and KB ’71. The rest of these jingles are “in the clear.” You get assortments from collectors Stuart Barrett (Incredible Mix); Paul Drake (PAMS 22 plus a capellas); Mike Desaia (Hot 99.9); Ben Eden (PAMS 26D, 32, 49 and a capella); Mike Fesko (PAMS 15, 18, 26); Ric “The G” Gourlay (PAMS 17, 26, 27, 28, 29 DJ customs, 30, 31, 32, 33); Daryl Jones (PAMS 18, 27); Martin Lester (PAMS Stereo Island, a capella, KJIS 1970, and the Disclaimer); Don Murley (PAMS 18, 28, 41 and the Disclaimer); John O’Sullivan (27, 37, 41, ‘KB 71); Paul Richards a capella; Glenn Sauter (PAMS 33, 40); Trevor Stern (PAMS 31, Solid Rock, Energy I); Ron Turner (PAMS Philly Flo, 29 DJ, 30); and Ken Williamson (PAMS 33). As if that weren’t enough, you get radio station jingles too! These include KAAM PAMS 29, 32, 33); KFTX a capellas; WBCQ (PAMS 26, 27, 29, 30); WLGZ (PAMS 16, 17, 18, 22, 27, 28, 30, 31 and 3WE); WLNG (PAMS Smart Set, Doo Wop, 15, 17, 25, 28, WLS ’71 and Sonovox); WPON (Big
Your Collection is Missing These. Volume I It's an hour-long CD of material we were missing good copies of, and so were you. The first item is a five-minute oddity: Bill Meeks, president of PAMS, narrating a tape to Rick Sklar in which he reminisces about creating Series 26,27,29 and 31 and plays some custom audition cuts for WABC! The latter WABC cuts I promise, you have never heard! You also get the long-sought-after WBBM (Chicago) Heller news custom package from 1971 and the WBBM electronic news sounders created by Imagination, Inc. of San Francisco. Other goodies: the full demo for TM's first country package for KENR (cool call letters!), Futuresonic's Headliners demo (their high school series and really swingin'), and a short PAMS commercial audition.

Shock! Swingin'! Sleazy! - The Movie Promos Remember all those great radio commercials for the drive in flicks? The monster movies? The beach films? We've dug up 55 of 'em dating from 1957-1975 and they'll really spice up your oldies show! You get scary features like "Astro Zombies" and "Incredibly Strange Creatures Who Stopped Living and Became Mixed Up Zombies." (Really!) You get sleazoid promos for "Graveyard Tramps," Live Fast, Die Young" and "Toolbox Murders." Some are "adults only" shows. And we've found relics of the age like "Psychedelic Circus" and "Agent 0069-Girl from Sin." They range from :18 seconds to 1:00, with some even longer. Each promo has its own CD index and timing for easy cueing. As many of these spots conclude, "Rated R, no one admitted without parent or guardian!"

Gem-90 Volume I These are PAMS jingles, sung by our vocal group between the years 1995 and 2000 and most are in stereo! Check out cuts from collectors Doug Allen, Norman Barrington, David Bartley, Joe Myers, John Rieger, John Scavo, Kenny Tosh, Scott Warmuth and Ken Williamson. And jingles for these radio stations: KAAM (huge assortment!), KBOV, Rock 103.5, WEIM, WKIO, WKXP, WNIG (not on other CDs), WLUX (air versions, not a demo), WNCI, WPXZ, WSHS, WTIX, WTQX and WVLT. Wow! About an hour and five minutes of exciting stuff!

This Just In Volume I These are all packages which we either didn't have, or didn't have good copies of! You get the elusive PAMS Coloursonic (electronics) demo, CKLW Pepper Happy Hornblower (more complete, better fidelity than on the Big 8 CD), some old jingles for KWIZ, PAMS 32/33 for WLCY, a 1967 custom package produced in Dallas for KSFO, San Francisco by PAMS and TM writer Phil Kelly, the PAMS Series 34 WABC rehearsal tape (similar to the demo, but slightly different), WCOS PAMS 14, WHBQ PAMS 18, WKRN's 4 CRC cuts taken from an album (you get to hear all the Keener jocks speak in the middle of one of them, and these were not on our two WKNR CDs), and two very special short songs by Phoebe Snow recorded for WDIV-TV4, Detroit. One is a ballad, one is a disco tune with the theme "Go For It."

Fun Volume I It's an hour and five minutes of, uh, Fun! You get the full Pepper Tanner "Fun One" presentation including jokes and jingles; Pepper Fun Series B for WHBQ; more PAMS girl singer auditions (some are pretty good, some stink the place up!); Futuresonic's "Fun Radio" 3 bits for WOTD; TM DJ Funnies (for KDKA and other stations); PAMS KCBQ 1976 funny DJ cuts; and Series 32 and 33 (Good Timers and Fun Vibrations) for KLOU and WFHG.

TM Classics from the 70s Volume III More great demos, in fact an hour and eight minutes! You get the custom KCBS "97-K" package (jingles only in mono), WBAL "Sounds Like" (full presentation), WFIL Basics, WIND's "The Power," The Commercial Source and The Production Source. These really give you a picture of great radio production from that decade.

TM Classics from the 70s Volume IV You asked for these great packages! Now you can hear the full KCBS-FM "97K" package in stereo with narration. You also get the great 1976 KNBR custom, the WTIC custom and a rarity: The You package, but sung for WFIL and KXYZ with the Dallas singers and the same narration as heard on the LA vocal version previously available. An hour and eight minutes!

TM Classics of the 70s Volume VI This hour-long CD illustrates the wide variety of great packages TM produced during this decade. You get the KXYZ custom easy listening package, the stereo demo for Master plan (a production library) and the follow-up to Rhythm of the City, Rhythm of the City II, created for 3DB in Australia. You also get the Soul 73 demo for KKDA, WOL and WDIA. Those of you in the know will notice that it uses the tracks from Plays the Hits! Also on this hit-packed CD you get the Voices of TM demo and something called The Voice of Freedom, which is as true today as it was back then. Quite patriotic and wonderful.

TM In the Beginning Volume I An hour and three minutes from TM's earliest days. You get the very unique "Now Radio" package for WBKW, WPRO and WRNG (the only stations which ever got this fabulous package). Also included are some logo auditions for KQV using tracks from the Half Brass Half A Capella package and Warm and Wonderful for WDBO. Truly, they do not write jingles like this anymore.
#M-72 Jurassic Jingles Volume VI: CRC Missing You get the rather long and spectacular Series 3 demo, WKBW Series 3, KSO Series 11, KWK 13, CJCA Series 30 and as a bonus, several commercials for Mary Kay cosmetics written by Tom Merriman. A careful listen to these will show you where the “Now Radio” came from. For more on “Now Radio,” see “TM In the Beginning” (details elsewhere). An hour and three minutes of the best of Tom Merriman’s writing.

#M-73 Sessions Volume I (Collectors Only!) Did you ever wish you could be listening in the control room as a jingle package was created? You can hear CRC Series 13 for WMGM (featuring the NY vocal group!) as they sing take after take. Then you get the Dallas singers of Music K Productions led by Chris Kershaw with some WOHO jingles from 1974...then a rare treat! Listen in as Pepper Sound Studios records the instrumental tracks for “The Station that’s All Heart.” It’s over an hour and eight minutes of unedited fun!

#M-74 Ullman: The Secret Dallas Producer Volume I In the early 1960s, Richard H. Ullman had a huge operation which sold product from studios in Los Angeles and Dallas. This hour and five minute CD features the entire Richard H. Ullman story, told in their own words with sample jingles from dozens of radio stations; stingers, news tracks, commercial concepts and even comedy bits. As a bonus, we’ve also included the wild “Swinging’ Radio” jingle demo featuring WNDR and KLAC (at that time a top-40 station).

#M-75 Leo Burnett Christmas 1972 Meeting This half hour CD is similar to the Benton Bowles CD we offer in that it’s a live show with singers and a band put on by a huge advertising agency for its own staff. The approach is entertaining! You’ll recognize most of the jingles sung and laugh with the audience.

#M-76 100% Weird Some of the strangest concepts in the world of jingles. You get TM’s Good Feelings II that few people have heard, and fewer have purchased, TM’s Interkey and Century 21’s Chromakey. You then get the extremely strange KHJ PAMS Articupellas, featuring bad Sonovox and bad vocals. Finally, two jingle packages by Joey Reynolds of all people. Over an hour of creative misfires from some talented people.

#M-77 Have a Happy Day…The Jingles Finally they’re here, and in stereo! They vary in length from .02 seconds up to full 3:00 songs. Sung in LA, they are the epitome of early 70s cool! There are 37 generic jingles on the CD with intros for time, weather, sports and a number of instrumentals, too.

#M-78 All Request Volume VII More of your PAMS favorites that have not yet appeared on CD are on this hour and five-minute disc. You get KLIF 25B; the WAXY 1976 stereo assortment including 18/27/29/31; WJIM Beatles/17/19, and the WJIM 29 custom cuts you may not have heard; WOLF 18; and the rare WOWO vocal/instrumental custom package. (This session in 1969 was the only time PAMS tried to record instrumentals and vocals all at once so there are lots of outtakes).

#M-79 TM Classics of the 70s Volume V This company was known for its syndicated programming as well as its jingles. This CD features some of each. You get the demo and jingles in the clear for their beautiful music service, some short instrumentals, the “Beautiful Rock” demo, and one jingle package, “The Connection” for KJMQ. It’s an hour of unusual but nicely produced stuff.

#M-80 Drake Tribute Volume II (2 CD Set) CD 1 contains the full demos for these Drake/Chenault formats: XT-40, Solid Gold, Great American Country and Classic Gold. Bonus track: Drake Series I jingles, a capellas, news intros and Bill Drake jock liners for CKLW, remastered with CEDAR® Noise Reduction. These are greatly improved over the material available on our “Big 8: CKLW CD.” CD 2 contains Drake-Chenault format demos for The Golden Years, The Top 100 of the Sixties and Hit Parade, all in extended form. These are taken from the second Drake demo album. You also get Johnny Mann’s KOGO (San Diego) and KOGO (San Diego) Sound of the City (33 cuts) available for the first time anywhere. Bonus track: KFRC Drake a capellas, Series I and Series II restored with CEDAR® Noise Reduction!

#M-81 TM Gift Pack (7-CD Set in its own hard plastic protective carrying case) A real treasury that you’ll want to own and save! These are some rare and exciting demos mastered at TM. CD 1: Airpower (B-96), Airpower Plus, Air Works, Alternative, America’s Best (big band stereo package), California Country (KLAC), Capitol Gold and Connection (rather disco-like for KMJQ in Houston). CD 2: Count On Us (WBZ), Country Powerhouse (WMAQ), DBSV (for AOR stations like WMET!), Digital One, Direct Hit, Power 99, Everyone’s Comin’ Up a Winner (WMAQ). CD 3: Freedom (KMPS country), Full Force, Fusion, Great Ties, Have You Heard the News?, Knoxville Country (WIVK), Intercept (KIXK), Keeping You in Touch (KPRC). CD 4: K-Love (KLVE in Espanol), KSFO/KYA FM, KZLA, Legend (K-Earth), Magic of Boston (WMJX), Magic FM (KMGC, Dallas), KTKS, New Mix, Oasis (original package). CD 5: Phase II (narrated demo for KILT, WCBM), Philadelphia Country (WXTU), Penetrators, Propellants, Retaliate (WAva Power 105), Rhythm of the City (KFRC demo). CD 6: Shockwave (KCBQ), Shotguns (KCBQ, WRBQ, CFTX, WSIGN, WMYQ), Spirit of Texas (WFFA TV), Someplace Special (WTVN), Someplace Special (WCAB demo). CD 7: Synergy, TM Mini’s (comedy shouts and
stagers), Winning Score, Who’s Got the News (WBBM), WBZ 1985 custom, You Gotta Listen to Talk (WRC AM), and You (KXYZ with Dallas vocals). These are all full-length demos and sound spectacular!

M-82 Sally Loves the Stooges This ain’t a jingle, but it’s something you’ll want to run on your show! It’s an original comedy song written by Ken R., sung in barbershop harmony style. It tells the tender story of a girl who is obsessed with the Three Stooges and how her boyfriend overcomes this problem. It’s a 2:03 novelty CD single produced with the help of our jingle group. At this price, why not?

M-83 All Request Volume VIII This hour and three minute CD contains 6KY (Australia) 35/WXYZ custom ’68/Clyde; WBBQ (Augusta, GA) 32/33; WCLS (Columbus, GA) 36; WNOX (Knoxville) mixed group a capellas, 31 and Solid Rock; WTOB (Winston-Salem, NC) 27 and 29; and WZOO (Ashborro, NC) 44/42/Clyde. Some of the best PAMS stuff from the mid to late 60s!

M-84 Best PAMS Resings of the 90s Volume II Wow! Big assortments and individual cuts totaling more than an hour, most of which is in stereo. Hear jingles for Doug Allen, WKIO, KAAM, John Rieger, KCCF, WIPC, WICE, KOMA, WGH, WNCI, WCWA, WKXD, Ken Williamson, John Scavo, KATA, WJIB, KPNT, WYSY, Tracy Carman, Kenny Tosh, WVM, Joe Myers and more! You’ll hear cuts from Series 18, 22, 23, 26, 27, 29, 33, 40, Solid Rock, Philly Story and a lot of surprises.

M-85 Jurassic Jingles Volume VII: IMN/CRC On this hour + CD you get a better copy of CRC Series 25 (Big Band Bit) conducted by Quincy Jones for KVIL. Also included are several instrumental versions of those cuts. Next in sound is CRC 26: Weekends, also for KVIL. Then several packages from the rather obscure but cool Boise producer, IMN. You get WHYN’s “FA” series; the demo for their “W” series for KYSN, KOBY, KIMN and others; their “A” series for WPEN, KGEM and WCBS; and their “B” series for WINS and WQAM. As they say on one of the IMN jingles, “More news any moment!”

M-86 TM: The Middle Years Volume I As TM continued to produce through the late 1970s and early 1980s, they came up with some great stuff! This hour and four minute CD includes WBBM(FM): Hot Hits/Fusion in stereo; WRKO: Count on Us, Crossfire and Phase II; WVLK: Propellants, Image 73 and the YOU series; WZOK: Synergy and Hit Radio, both in stereo.

M-87 Swingin’ Futursonic Jingles Volume I This jingle company had the hottest stuff in the late 1950s and early 1960s! Our friend Tom Parma, former employee of Futursonic and now selling for JAM Creative Productions, loaned us his own personal tapes! You get Happy Holidays (WAME, KNUZ, WSAI); KWIK-Q (WQAM, KLIF, WAKY); Merchantunes, Singalong (WIRE), Swingin’ Sound (WRLT, KUME, CHUM); and Temperatunes demos. An hour and two minutes of cool stuff.

M-88 Swingin’ Futursonic Jingles Volume II This material was actually better than what was being produced at PAMS during this same time period. On this CD you get over an hour and four minutes! Included: A capella I (WINS, KDAY, WLOF, CKPC); Calendar Girl (KXOK); Econo-Pak (WINS); Image (WFUN, KOL) and Image instrumentals; a girl singer audition (she didn’t get the job!); a few custom cuts for KLIF; The Pacemakers (WJJD, WRIT, WSAI) and The Versatiles (Days of the Week) in stereo for KLIF and CHUM!

M-89 Dynamite Decade Volume I The years 1958-1968 were probably the best for top-40, and jingles! You get over an hour of great jingles including PAMS WELM 15/16, PAMS WHIZ 6, PAMS WIL 6, another strange WQAM package by ? and four packages from Dallas producer Musicreations. These include Big Beat (a real Beach Boys-sounding surf package from ’66), In-Group (WKNR), Multipliers (“Put your logo here!”), and the TJB package.

M-90 Totalsound Tom Parma was and still is very influential in the jingle business in Dallas. Formerly with CRC, Futursonic, PAMS, TM and now JAM, he also had his own company called Totalsound in the early 1970s. On this hour long CD you get a great representation of his very cool jingles including Confetti (WLOB, KLIF, WSEN), Gold Country (WBAP), Good Music (KVIL, KMOX, KSL-FM), Moove (KEEL), Rating Pak (WFUN), Total Country (KHOS, KGBS, KBOX), Totalogo stereo (KINK), Total Velvet (CHFI, WLOB, WSEN), WTOD Custom 1971, and WVON Black Giant. Unique!

M-91 NBC News and Information Service Finally, all the instrumental sigs from this mid-70s format are available and there are hundreds of them! You get about 73 minutes on this CD, and most of the logos are a combination of synthesizer and real instruments. There are no sung jingles on this CD, but all cuts have a consistent and memorable three-note theme.
#M-92 AFRTS (American Forces Radio) Volume I It’s over an hour of jingles produced by Totalsound and TM, the latter in stereo. The Totalsound jingles are taken from packages including Moove, WVON Black Giant and Gold Country. The TM cuts are taken from WMCA Live in New York, the WMAQ Country Music Radio series, Winning Score and Simply WBEN. A unique addition to your collection!

#M-93 Dynamite Decade Volume II More great stuff from the years 1958-1968, in fact one hour and 11 minutes more! You get two PAMS Series 18s: KALL (Salt Lake City) and KNIN (Wichita Falls, Texas). Also one PAMS 14: KIXZ (El Paso). Then we present a strange CRC package, Series 20, which sounds like the roaring 20s for WSMB. These are followed by two Futursonic packages: KWIK Ideas (for KLIIF) and Time Chex. To finish out the CD, a “Twist and Shout” rip-off that Richard H. Ullman produced, and which was sung by Jodie Lyons to make fun of the Beatles. Next, two packages from the Peter Frank Organization in Dallas: KODA and a very long cut for WFIL. The CD is finished off with Tom and Judy Parma’s personal demos from 1965. These feature mostly PAMS material, and some is among the strangest I’ve ever heard! These last two demos contain some commercials and some IDs.

#M-94 Parma Productions Collection Tom Parma is a jingle veteran who worked at Futursonic, CRC, PAMS and TM. But besides all that he had two of his own Dallas jingle companies, Totalsound and Parma Productions. Here you get an hour and 13 minutes (!) of his best material from the 1970s. What do Parma Productions jingles sound like? Like the best TM material of that day because they used the same singers (including Parma’s wife Judy) and many of the same musicians and writers. You get: AFRTS Startrax jingles; Flash (a disco package from 1979); It’s All In the Country (1978); Starflow and You Can Feel It All Over. Very energetic and exciting stuff!

#M-95 Best PAMS Resins of the 90s Volume III If you like the old PAMS series, sung in a contemporary style, you’ll dig these! You get an hour and eight minutes that includes packages for these stations: KD Radio, KLL, KLZ, WCPR (Lunatic Fringe!), WKEN and WNCI. And these individuals got some cool assortments: Doug Allen, Ed Brouder, Hank Brown, Joe Cipriano, John Dell, Steven Geisler, John Hamel, Brian McKay, Brian Macwhirter and Brian Sommers. Mostly series 15-31 are featured.

#M-96 What The ____? Some of the most unusual jingles ever recorded. Your jaw will drop when you hear the OTHER “Batman” package for KBOX, this one by Musicreations and named “Bat Radio.” Then we go to WIXY’s “Cool School” from Spot Productions (a knock-off of PAMS 25D, “The Cheerleaders”). Next is Jingle Mill’s “Sound of the 60s.” You will wonder what they were thinking. We follow these mind-warping packages with Impact’s “Synful Brass” for WKYC. These guys took an old WKYC Musicreations package and added honky Moog synthesizer to every cut to make them even stranger. And you’ve never heard of this next company, Concept Productions and their package “We Are.” It’s too strange to describe. To finish out this hour and three-minute CD, we give you the rare PAMS Series 21 done for KHEY in El Paso. You get both the mixed package and just the vocal track (what the singers heard), which is a real collector’s item. Lastly is the unbelievable 1970 bomb called “Ecology” for WWDC. They should never have polluted the airwaves with this junk!

#M-97 Jurassic Jingles Volume VIII: CRC Lost Packages Let’s start with Tune Toppers, a group of the worst sound-alike jingles ever! They have an “Elvis” to die for, literally. Then you get Series 8 for WKMH (later known as WKNR), Series 9 (The Mighty One) for KOL, Series 9 DJs and a very strange Barbershop package for WQDY. Can you imagine a whole set of IDs sung in barbershop style? To round out the CD, CRC Series 31B for WHMA and Series 35 for WJBK (another Detroit station). Then, a couple of very rare TV ID packages, the WOR-TV package which used “Tara’s Theme” from “Gone with the Wind,” and another package called TV-8. It’s an hour and eleven minutes.

#M-98 Your Collection is Missing These Volume II An hour and eleven minutes of jingles you need! First is a TM Six Flags stage show soundtrack (all sung!) which is almost five minutes long! It’s a bit silly but very well done in Dixieland style. Then other items from TM include WKTI Stereo Rock IV jingles, WRIT Listen to the Music and FINALLY, the WCFL “Super CFL” shotgun from Phase II. Then from Pepper Tanner: WVLK Now Sound and WPRO Sound of Feeling Good (long and wild!). You also get WIXY’s Personality Plus from Spot Productions, the CBS 1980 news sounder and a longer, more interesting version of the IRI KSFO package featuring Trella Hart.

#M-99 Dallas Producers Series Volume I PAMS and TM weren’t the only ones making jingles in Big D! On this CD you get some of the best of the other folks in Dallas! Century 21 (before merging with TM) presents: Energy Elements for WCAC/WBET; Chromakey II (WCOL); Series 18-49 (WFAA); Matchmakers (WDAE) and Something Fine (Stereo 97). Then two packages from Kershaw-West: Suite for Chicago (in stereo with some LA voices plus Chris Kershaw, WQX FM) and Rock Invention (also in stereo for WABX). Another great name in Dallas was Jodie Lyons who had his own company after leaving PAMS. He contributes Olde Golde for WHFI and Something to Love for WPIX-FM (New York). Then my former radio station, WOHO, had Music K’s Back to Basics. And the hits keep coming! PAPA (run by former PAMS engineer Bruce Collier) presents KINT Something Special, and custom packages for FM 104 and WPRO. To cap off this amazing CD, Ralph Stachon’s custom package for WHIO. Over an hour and fifteen minutes.
#M-100 Swingin’ Futursonic Jingles Volume III This company rivaled PAMS for creative output in the late 1950s and early 1960s, and this CD proves it! You get demos for Most Happy Sound (KDAY, KBOX, WPDQ), Pagemakers (WLOF), Soft Sell (WFMJ, CHUM, WPLO and others), and Temperatunes which is sung for WQAM in Miami. Then come the instrumental cuts from Variety Fair (using the CHUM logo). These are followed by a capellas for CKPT (3 cuts), KDAY (3 cuts), KLIF (6 cuts), KXOK (6 cuts), KYW (2 cuts), WWJ (lots of cuts) and WXYZ (5 cuts). An hour and three minutes!

#M-101 All Request Volume IX It’s another mixed bag of cool stuff! We start with two closed-circuit ABC radio feeds to network affiliates, one which plays a 1978 news logo. Also from ABC, a better copy of the famous 1990 radio network news theme. This is followed by four CBS sounders. And for those of you in Ohio we now have the cool BP (SOHIO) cold weather warning sounder. Next in sound is the infamous “missing” CKLW jingle package which aired from 1966-1967 and has a real slammin’ Motown style. As if that weren’t enough, you also get KEWB’s custom “Color Radio” jingles and the 1975 Sundance Music Makers demo for WCAU(FM). Bonus on this CD: The Storz stations (KXOK, WDGY, WQAM and WTXI) had those cute little PAMS girls from Series 25 do a bunch of spoken and sung lines (some are generic). An hour and four minutes for real fans.

#M-102 Blowtorch Volume III More jingles from 50,000-watt AM stations including Kansas City’s KCMO PAMS 43/44 and San Francisco’s TM Nobody Does It Better for KNBR. From Dallas TM KRLD People You Know; WAPE (Jacksonville) PAMS grid and WFNC (Fayetteville, NC) PAMS 42/43/Clyde. You also get two packages from Boston’s WHDH by TM: Boston is Beautiful and Music 85. San Antonio’s WOAI’s PAMS Great American Music Machine is here and we finish off this hour and 13 minute (!?) CD with country giant WWVA in Wheeling, West Virginia’s PAMS Country I.

#M-103 PAMS in Transition Volume I After the Beatles recorded “Sgt. Pepper,” popular music changed and PAMS struggled to change with the times. While the company’s most memorable series were produced between 1961 (Series 17) and 1968 (Series 34), the years between 1968 and 1974 were quite interesting as well. During that period PAMS produced some excellent packages and this hour and eight-minute CD features some of them. You get: KAAY 42 (with special treatment from bass singer Jim Clancy), KBRE Philadelphia Story, KCSJ’s KNBR package and Song of Joy (for Christmas), KEND Revolution 72, some weird a capellas for KNOK and KCOH, KPUR 35 and 36, WFMJ acs and moog, WGBG acs and moog, WGNE Solid Rock I and II and WNOK 40/41.

#M-104 All Request X These are the most requested PAMS packages which are not yet on any of our catalog CDs: KFJZ (Fort Worth) 28, KILT (Houston) 17, KILT 18, KISN (Portland) 29, KOMA (Oklahoma City) 28, WAKY (Louisville, KY) 30 chime/Philly Story/Shaf, WANS (Anderson, SC) 40/43 and XEROX (Mexico) Solid Rock. Wow! Over an hour.

#M-105 All Request Volume XI This is a cool assortment of PAMS packages you have never heard. It starts with the strange 1971 assortment for Australian stations 2SM/3XY/2NX/2NM. PAMS tried to split the difference between singing these mostly a capella jingles in a Solid Rock style and the traditional vocal sound. Weird. Then a short custom grid for KEYN(FM) in severe stereo if you know what I mean (the same instrumental tracks as the KJR grid!). Next: KJAS Philly Story I (some cuts Philly Story II) and a group of additional instrumental jingles recorded for the NBC Radio Network and Monitor in November 1973. Included is the three-minute moog song by Jon Wolfert called “JW’s Theme.” You get WTOD (Toledo!) Series 18 and Sonovox session with outtakes, then some a capella outtakes and stereo final versions for KLKB, WICB and KJR mixed from the multitrack tapes…. and a few instrumental outtakes from the WOKY grid session. It’s over an hour!

#M-106 Track-O-Rama Volume I We’ve never presented a whole CD of instrumental ID tracks before, so collectors will want this one! It’s about an hour and includes: Ullman Pacesetters, Futursonic Image II (in stereo!), Jodie Lyons Lively Ones (also in stereo), Pepper It’s What’s Happening, Thunder Productions Thunder Tracks (done for WFIL originally), and two packages from William B. Tanner: Super O (KONO) and KDBC custom . You’ll finally be able to hear these tracks without the singers!

#M-107 TM Classics from the 70s Volume VII Another hour and five minutes of stuff you haven’t heard! Includes “The Spirit of America,” the 1976 patriotic presentation featuring the voice talents of the late Stan Wessell and a city song featuring the voice of Tony the Tiger. Hello? You also get KCNB Stereo Rock 8 jingles (in stereo of course) and WCSC Rhythm of the City.

#M-108 All Request Volume XII PAMS packages you asked for in your dub requests! This hour and seven minute CD includes: KCTC stereo custom (one of the last things PAMS produced), KGLA a capellas, KRTS 1974 stereo country assortment (including the custom 74 KFDI and other packages), the short but historically interesting WFAA 1964 custom, WHYN 25D (The Cheerleaders) and WISM Philadelphia Story.
#M-109 PAMS Blaster Volume I It’s an hour and five minutes of great PAMS jingles never before heard on CD and a lot of it in stereoeoeo! You get KRIL (El Dorado, AR) Goldmine in stereo; KYA (San Francisco) People Power/Pookie Power (!?); WAMS (Wilmington, DE) Series 40 and Clyde; WBNS (Columbus, OH) custom, Series 41 and 43 (all sung with the Studio C group); WHFI (Birmingham/Detroit, MI) Smart Set/Custom in stereo; WMML (Morehead City, North Carolina) Series 26/31; WOCN (Miami Beach, FL) custom in stereo; the Spring demo (WABC/WCWA and others) and the Valentine demo for KLIF.

#S-01 The BIG One More than four hundred PAMS jingles segued into several short montages which will blow your mind. Spans the years 1960-1977 and includes series and custom jingles from a blinding variety of stations around the world. Never have this many master-fidelity jingles been assembled on a single CD. Over sixty minutes of excitement! Highly recommended.

#S-02 Christmas 1995-1996 Our infamous party tapes have become “must-haves” for collectors around the world. Our 1997 and 1998 fiascoes are already on CD, so we’ve made a combined CD with two more years. Loads of PAMS outtakes.

#S-03 Christmas 97 About a half hour of outtakes, recent PAMS jingles produced in our studios for stations around the world and assorted holiday madness. Unlike our other CDs, this is in montage form and is very funny stuff!

#S-04 Christmas 98 See above description, but all new material from 1998.

#S-05 Christmas 99... the Final Party: Well, it had to end sometime. You hear the best jingles of that year plus some rather hilarious PG-rated outtakes and jokes. It was an emotional experience for all of us that we’d love to share with you, the jingle fans. It’s about 40 minutes of the best of Ken R. Inc. for 1999 with plenty o’ PAMS to be heard.

#S-06 In Search Of...Historic PAMS An hour of collector’s items including the WPEO air versions to Series 14, part of a PAMS instrumental track session including outtakes for Series 15 (in stereo!), Series 17 for some of the Storz stations including WDGY...WHB...and WQAM. You’ll also hear a few minutes of the original NY recording session of the vocals on WABC’s original assortment, a PAMS melody audition tape, more hilarious female vocalist auditions (these are the bad ones!), Series 25 experiments, and some promos for PAMS recorded in the mid-70s. Bonus track: Bill Meeks’ “Boss of the Beach,” jingles which were recorded after he left PAMS.

#S-07 Monster Sampler on CD On most of our CDs you hear a short space between the jingles. On this one, you hear over 300 jingles segued together in two breath-taking 25-minute segments. Previously available only on cassette, this montage offers about 50 minutes representing the most interesting cuts obtained when we purchased the original PAMS tapes in 1980. Bonus: Another ten-minute sampler is included: Dallas4 (an hour total).

#S-08 PAMS PLANET What can we say about this, except it’s a wild trip for collectors. Includes outtakes, WABC DJ jingles, Flip-Outs (the weirdest PAMS stuff there is) and Personals (PAMS jingles sung for various collectors around the world).

#S-09 Norman B.’s Extravaganza 1 Sampler Our British Webmaster, Norman Barrington, is a big jingle fan and he’s compiled a CD crammed with over 70 minutes of PAMS, TM, Pepper Tanner and CRC jingles. These montaged cuts are divided up into several segments for easy listening for a good cross-section of 1960s Top 40.

#S-10 Tracy Carman’s Multiple Music Power Sampler Volume I An hour of spectacular PAMS jingles in montage form, divided up into two segments of about 30 minutes each. Hear the singers fool around! Excellent quality and lots of fun from one of the world’s premier jingle collectors.

#S-11 Behind the Scenes at PAMS For a while in the 90s we offered this thing on cassette. Now that we’ve obtained much better copies of this original archival material, we’ve assembled it on CD for the first time. These are outtakes from the original PAMS studios including material from 1964 through 1974 which was assembled to amuse the staff at PAMS Christmas parties. And don’t play this Dr. Pepper jingle on the air… it’s rated R! An hour and seven minutes!

#S-12 The Big Two When we released “The Big One” sampler we were overwhelmed with orders and compliments. Apparently you all like to hear more variety of jingles, lots of different series, and stuff you have NEVER heard before. Well, we’ve done it again! Another hour-long sampler divided into sections such as 60s medley, 70s medley, etc. We even have a section of Christmas jingles! It’s over an hour in all divided up into convenient segments. Highly recommended!

#S-13 Christmas Parties 1992/1993 Another CD just for fun! Each year we collected the best jingles produced in our studios (and the goofiest and most embarrassing outtakes) and combined them into a great montage. Among the gems in this collection you’ll hear a beautiful Christmas cantata sung a capella by our group, a barbershop quartet tune with Ken R.
himself singing lead (uh oh…) and as a bonus, you get a montage of some of the best of our 1991 jingles, too. Over an hour of cool stuff.

**#S-14 The Livin’ End** It’s our last, and perhaps best sampler CD. It’s all PAMS, it’s over an hour and five minutes and we guarantee you haven’t heard most of this stuff! It’s divided into listenable segments of less than 10 minutes each and sections include: The 60s, The 70s, News Jingles, Christmas cuts, the KTAC “Talk of the Town” Promo, WRBC’s Sales Promo, Country Jingles, Stereo Jingles, WTYY(FM)’s “Have a Happy Day” song, and some lightly censored track outtakes from Series 20 and 25 (in stereo!). Also: special guest appearances from Jon Wolfert, Ken Justiss and Ron Harris (don’t tell them!). Highly recommended.

**#SB-07 PAMS Go Go Stations** 7 Series 29s! KJR, KXOK, WCOL, WHFM, WKWK, WMEX and WPTR are here for you. 1964 was perhaps the glory year for PAMS and it doesn’t get much better than this series. An hour of hits!

#EB-01 The PAMS Bible This is a CD-ROM with all the lyrics to the PAMS numbered and unnumbered series, along with special articles on other PAMS topics. It also has audio from the numbered series. Can be read with either Mac or PC.

#EB-02 The Jingle Book (CD-ROM only) We long ago sold out of printed copies of this very popular book which was first published in 2002. By popular demand, we are making it available on CD-ROM which as an added bonus, now contains many color pictures of our jingle operation which were not a part of the printed book. And of course, you will still receive the one-hour plus audio disc which came with the original version. If you missed out on this first ever book about ID jingles, this is your chance.

#B-02 “Up and Down the Dial,” a book published in 2003 with hilarious radio tales by Ken R.

#B-03 “The Second Jingle Book” is 207 pages of cool stories, behind the scenes information and eight full-color pictures of the ID jingle industry in the 1960s and 1970s.

#SU-01 Surprise! Anyone who orders all the above CDs gets this hour and ten minute bonus CD FREE with jingles by some of the other producers in Dallas and elsewhere. You get the most pretentious demo of all time, Cosmopolitan Sound Town (which was actually distributed by PAMS) that features “good music” IDs. Next two packages from Century 21: Non-Stop II (contests) and Concept 21 (commercial jingles… yes, the singers can go longer than 10 seconds!). Then from Joseph P. Cuff, Sound of America for WIRE. From obscure producer Liberti-McBrien, two packages: Sound of the City (for WMCA, WABC and WNEW!!!) and Breakaways (sing-overs). Then a stereo package from a company called Money Machine: Spirit. Lastly from Ralph Stachon, the extremely rocky-sounding We Believe package for WWDC (Washington, DC). These jingles sound like a cross between TM’s Where Your Friends Are and the musical Jesus Christ, Superstar. Extremely dated and fun stuff from the 60s and 70s as your free gift from us.
